LIM Application for 1/ 68 Totaravale Drive Totara Vale 0629

This Land Information Memorandum (LIM) details information known to Council about this property.

Changes to legislation, subdivisions, new street names and numbering are some of the things which may affect the property information which Council holds.

The NZ Building Act came into force on 1 July 1992. From that date, the issue of building *permits* ceased and they were replaced with building *consents*. Under the old permit system there was no requirement for Council to keep or provide records of building work. While Council generally holds records of permits issued, often little or no information is available regarding results of building inspections.

If you or your clients are considering purchasing a dwelling built prior to 1992 and Council does not hold permit inspection records, a check by a suitably qualified person should quickly identify whether the building is structurally sound. (Please note that Council does not provide this inspection service.)

As this report is based on a clerical search only, it is important that purchasers also carry out a property file search, to ensure that approved Council plans match what exists on site. The minimal cost is a small price to pay when one is considering making a substantial purchase.

Applicants are advised to check the Certificate of Title for any consent notices, restrictions registered thereon.

Should you have any queries regarding Building or Planning issues on this LIM report please contact the Auckland Council on (09) 301 0101.

District Plan Changes notified

From time to time changes are proposed for the District Plan, and notified in order that people can make submissions. These Plan Changes may propose to alter zonings, policies or rules, and may affect this property or land or sites in the locality. It is generally not possible to provide specifics as to the many and varied ways in which plan changes may affect land, sites or development rights and obligations.

For a list of all current Plan Changes see Volume 3 of the hardcopy of the District Plan, or the “Modifications” page of the “District Plan” on Council's website (internet). Some of these changes are initiated by private persons, but are processed by the Council. They are known as Private Plan Changes. They have no effect until operative, whereas Council-initiated changes can have some effect from the first day of notification as ‘proposed’ Changes.

Proposed Unitary Plan

Please note that the Proposed Auckland Unitary Plan applies to this property. This LIM report does not contain specific information about the Proposed Auckland Unitary Plan. The Proposed Auckland Unitary Plan should be carefully reviewed and considered, as it may have implications for how this property can be developed or used. Until 16 September 2016, the Council and Central Government may establish SHAs in accordance with the Housing Accords and Special Housing Areas Act 2013 and the Auckland Housing Accord for the purpose of accelerating Auckland's housing supply.

Maps and other information on SHAs can be found on the following internet page:

Council holds most information in reference to records of permits issued; however with some permits often little or no information is available. Council does not accept responsibility for any omission regarding the records held.

Council sometimes holds copies of third party Building Condition Reports (also known as Safe & Sanitary Reports) and reports for previously known Unauthorised Work. These reports have been written by independent (non Council) consultants. Council is not responsible for the information contained in these reports or the accuracy of them. They are held on file for reference only.

It is important that purchasers also carry out a property file search, to ensure that approved Council plans match what exists on site.

Unauthorised work may require a COA (Certificate of Acceptance) issued by Council.
